Life Anew

Things you use every day.
Created for a new way of living.

For over 100 years,
TOTO has pursued the path
of science and advanced technology
to design a world of comfort
in the most important spaces in your dreams.

Beyond mere aesthetics.
Beyond simple creative comforts.
Our enduring mission - pursued with zeal
and not beholden to quaint tradition - is to turn
daily rituals into richly satisfying experiences
and to make this new way of living available to all.

Based on wellness science and maximizing
the effectiveness of materials and water,
TOTO technologies are designed to rejuvenate and replenish.
To liberate from stress and unburden the environment.
To support good health for people at every stage of life.

For body and mind in ways that awaken the imagination.
To bring to your life every day the promise of tomorrow's better living.

HISTORY

100th
ANNIVERSARY

“INNOVATIVE”

DNA

throughout the Next Century

In May 2017, TOTO ushered in the 100th anniversary of the establishment.
We look forward to tomorrow and the future, to provide people beyond expectations “every day”.

1917

1917

The company is established by Kazuchika Okura under the name, TOYO TOKI CO. LTD. which is later renamed TOTO.

1923

The Great Kanto Earthquake strikes devastating Tokyo. A sewage system is built during the reconstruction, leading to a rapid growth in demand for sanitary wares.

1946

After World War II, TOTO begins manufacturing metal fittings and faucets in addition to ceramics.

1980

TOTO launches WASHLET, providing consumers with a whole new level of cleanliness and comfort.

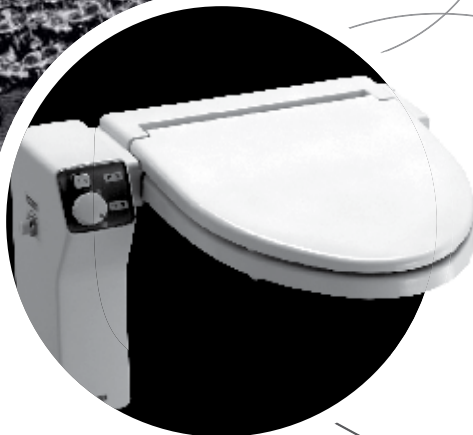

1923

1946

1980

1993

1993

NEOREST toilet is launched incorporating WASHLET with a comprehensive range of TOTO's innovations. It brings with it the fullest realization yet of the principle of Clean Technology.

2008

TOTO Asia Oceania Pte. Ltd. is established as the regional headquarters of the Middle East, South Asia, South East Asia, and Oceania.

TOTO

2008

2013

TOTO Asia Oceania launches its first Technical Center in Singapore. It serves to introduce TOTO's latest products and technologies to customers.

2013

2015

In 2015, TOTO exceeds 40 million units globally. Since the very first model in 1980s, new innovation and features have been continuously added culminating the latest model that is the epitome of comfort and hygiene. For the past 37 over years, TOTO has been developing every part of WASHLET to perfection.

2015

2017

2017

The Toto Museum in Kitakyushu was opened in 2015 on the occasion of the company's 100th anniversary and showcases the evolution of the business and its products. The museum highlights the historical landmarks that changed Japanese bathroom culture, including the move from rural to city living. Old toilet seats are on display, as well as exquisite porcelain tableware that the company used to produce as a side business in the past. TOTO aims to promote the appeal of this complex as a point of contact with visiting customers and clients. It positions as a landmark that disseminates information about the TOTO brand from Kokura, the birthplace of the company, to people all around the world.

2019

2019

TOTO is going to exhibit at the ISH2019 - the world's large international trade fair in Frankfurt, Germany for baths, toilets, buildings, heating and cooling, air conditioning, and renewable energy from March 11th, 2019 to March 15, 2019. TOTO began exhibiting in 2009, and this is the sixth exhibition with the new theme - "Life Anew". Not only you will be able to experience the unique technology of TOTO at the venue, you will also be able to physically touch our latest products. Through the exhibition, TOTO will share the message on its 100 years of evolution in TOTO's unique technological innovation, and for the next 100 years.

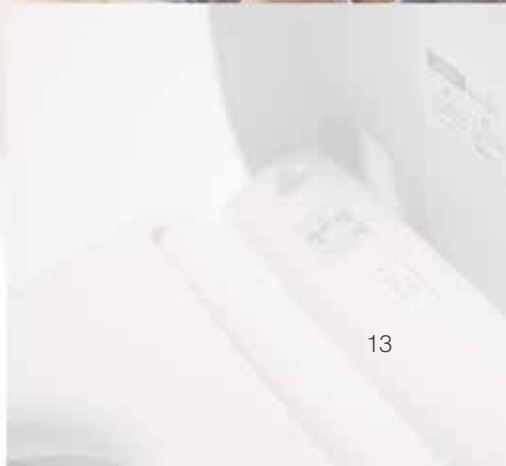

Life Anew

2015

40 MILLION WASHLETS SOLD WORLDWIDE

100% TOTO 100% MADE FOR YOU

Our deep feelings for people and their life have remained unchanged since our foundation.

In 1912, in an era when there were as yet no sewage facilities in Japan and thoughts of hygiene were still nascent, Kazuchika Okura, the founder TOTO, was deeply impressed by the cleanliness of the ceramic toilets he saw in the West and he took up the challenge to create a national hygienic ceramic industry based on the idea of “improving the lifestyle of the Japanese people”. Subsequently, at the end of five year’s research he succeeded in mass-producing Japan’s first hygienic ceramic toilet. This is exactly what we could call the beginning of a new culture.

TOTO’s manufacturing philosophy is bonded deeply to that moment create when new lifestyle values were created.

Further, these ideas have continued without pause until today.

TOTO remains dedicated to delivering products that offer inclusive functionality and respect for the environment.

We embrace these values every day to create a future that surpasses all expectations.

Corporate Message

TOTO

Life Anew

To create a culture comfortable, healthy living
Since our founding, we have continuously pursued innovations
that offer greater wellness and comfort to daily life
Honoring the trust that our customers and society place in us,
TOTO remains dedicated to delivering products that offer
inclusive functionality and respect for the environment
We embrace those values every day to create a future that
suppresses all expectations.

Mission

To ensure we secure and retain the trust of customers and society as a whole, we have formulated a mission with three key elements.

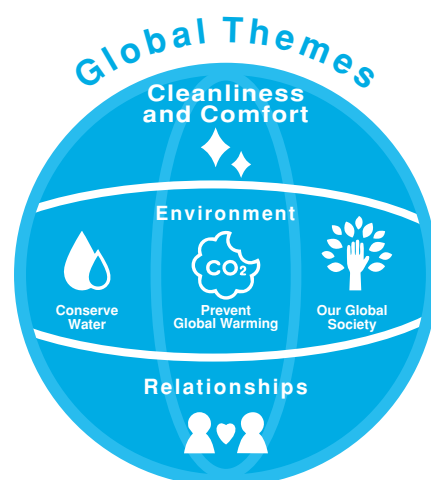

TOTO Global Environment Vision

We will implement our Global Environment Vision to support the mission.

Water, Earth & a better Tomorrow

At TOTO, we're committed to improving life and the environment for a thriving future. Our production processes and products save water and energy, while reducing impact on the environment. We provide cleanliness and comfort while building relationships that enrich life. Water, Earth & a better Tomorrow. All our group companies are dedicated to building a healthier and more sustainable tomorrow.

OUR DESIGN PHILOSOPHY

TOTO has a wide range of products that caters to all in terms of design and user needs. Be it the essentials or the luxury series, the designs would fit anywhere, everywhere. The principle of design lies in our philosophy of creating a Clean and Green product with Comfort.

CLEAN

TOTO embraces technology in the pursuit of cleanliness, creating high levels of hygiene and relaxation. Its Clean Technology is not only about hygiene; it provides enjoyment and comfort for everyone of all ages. It is all about increasing the user's fulfilling moments while reducing time spent on bathroom maintenance.

GREEN

Eco-friendly effects are achieved with TOTO's sustainable features that promote saving of energy and water. Some of TOTO's technologies require almost no chemicals for cleaning, and some even break down pollutants in the air. Every time you use a TOTO bathroom, the planet benefits.

COMFORT

TOTO incorporates comfort features in its Clean Technology for its products with a sophisticated eye for design. Nonetheless, TOTO's design philosophy goes beyond providing comfort to the eyes; every product facilitates easy usage and user satisfaction for everyone, dedicating the best comfort to all.

OUR AWARD WINNING PRODUCTS

reddot design award

Organized by Design Zentrum Nordrhein Westfalen from Germany since 1955, the international "red dot design award" is the largest and most renowned design competition in the world with more than 12,000 submissions from over 60 countries. The award-winning products are put before an international public in the red dot design museum.

Since their introduction in the year 1953, the iF design awards have been a reliable indicator of outstanding quality in design. The iF product design award covers all areas of product design. It serves as a platform for design-relevant innovations, thus recognizing today's globally networked world and its related dynamics.

Organized annually by The Chicago Athenaeum: Museum of Architecture and Design, together with The European Centre for Architecture Art Design and Urban Studies, Green GOOD DESIGN is the benchmark for new designs that foster a greater sense of ecological-based design, eco-innovation, conservation, green technologies, renewable energy, and sustainability to better the quality of both life and the environment.

A modern, white, bowl-shaped outdoor toilet is positioned on a wooden deck. The toilet has a smooth, curved design with a dark blue or black lid. It is set against a backdrop of a dense, lush green forest with tall trees and various plants. The scene is brightly lit, with sunlight creating a strong shadow of the toilet on the wooden planks. To the right, a portion of a wooden building with horizontal slats is visible. The overall atmosphere is serene and natural.

CLEAN SYNERGY

TORNADO FLUSH

AUTOMATED HOSPITALITY

WASHLET has many automated functions that keep your everyday life clean and comfortable.

AUTO OPEN / CLOSE LID

Eliminating the need to touch the toilet surfaces, the lid automatically opens and closes when the toilet is approached and departed.

AUTO FLUSH

No need to touch buttons or handles and never worry about someone forgetting to flush — it's automatic after each use.

INSTANT HEATED SEAT

The toilet seat immediately warms when the toilet is approached, ensuring a warm comfortable seat any time.

DEODORIZER

Highly effective deodorizing automatically takes place inside the toilet bowl both during and immediately after use, leaving no disturbing odors.

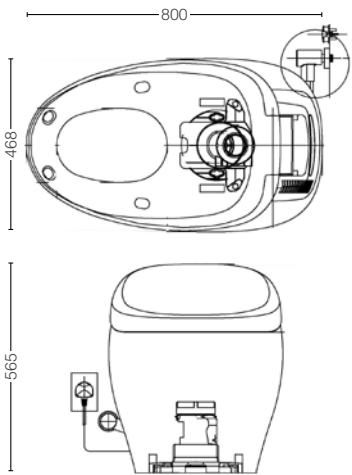

SOFT LIGHT

Subdued lighting switches on when the toilet is approached, so users do not have to disturb themselves at night with a bright bathroom light.

DECADES OF RESEARCH
WENT INTO MAKING
THE GREATEST ADVANCEMENT
IN WASHROOM TECHNOLOGY

ACTILIGHT

The NEOREST with Actilight represents the zenith of clean technology made to improve life. It is the only toilet with the technology to stay clean on its own, ridding itself of both visible and invisible waste through a photocatalytic process. Indulge in the comfort and cleanliness of NEOREST with Actilight.

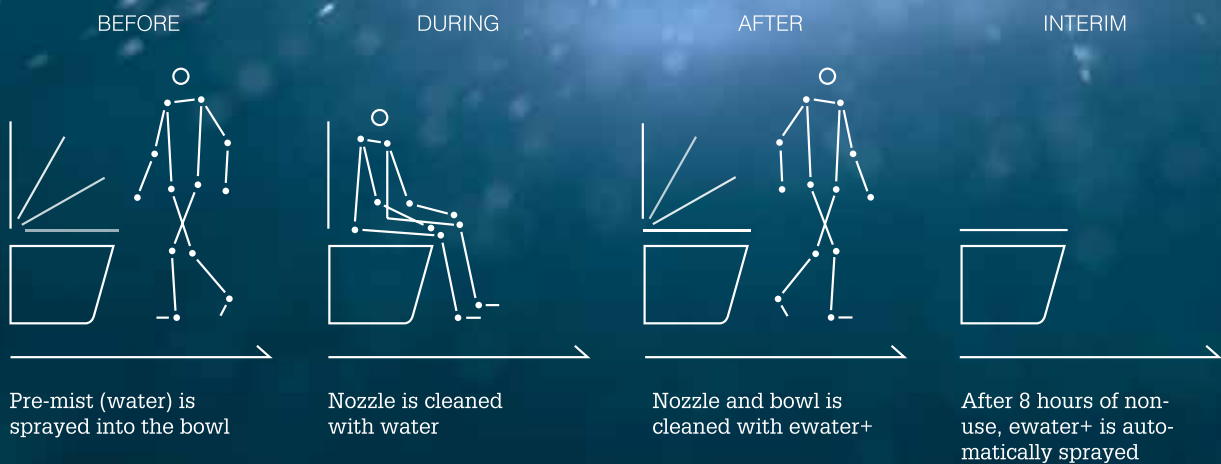

EWATER+

ewater+ is an antibacterial liquid that prevents waste particles from accumulating and staining the toilet bowl. It is sprayed into the toilet after flushing and eliminates 99.9% of bacteria. It also sterilises the bidet nozzle after every use.

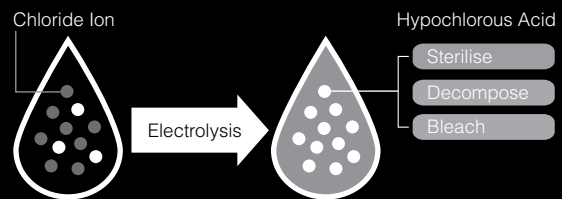

THE PURIFICATION CYCLE

MECHANISM

Tap water is electrolysed as it travels through the toilet.

When naturally occurring chloride ions in tap water are electrolysed, they turn into hypochlorous acid, the active ingredient of ewater+. Hypochlorous acid is capable of instantly sterilising a dirty surface.

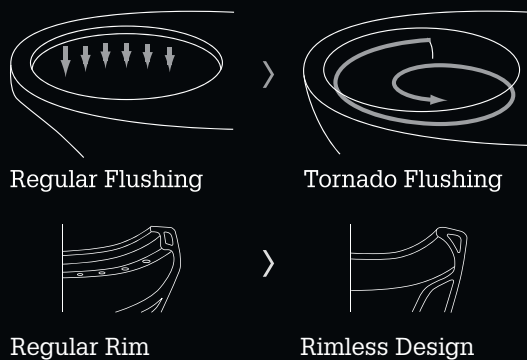

ewater+ turns back into regular water after two hours, making it an Earth-friendly alternative to harsh household cleaning agents.

INTEGRATED TECHNOLOGIES

This is no ordinary toilet

The Neorest integrates all of TOTO's cutting edge technologies culminating in a device that caters to all of your needs and more.

TORNADO FLUSH

The Tornado Flush together with the Rimless Design comprehensively covers the bowl from corner to corner and achieves a higher level of cleanliness with less water.

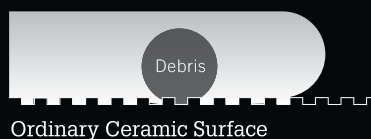

WASHLET

The Washlet's functions are controlled by a remote control. The flow of the warm, aerated water can be adjusted with ease for rear and front cleansing. After use, the wand disappears into its casement for self cleaning.

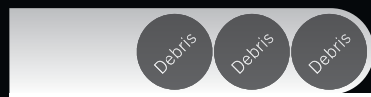

CEFIONTECT

This special glaze makes the ceramic surface ultra-smooth even at microscopic levels. The slippery surface prevents waste from sticking.

Ordinary Ceramic Surface

Ceramic Surface with CeFIONTECT

AUTO FUNCTIONS

The lid automatically opens as you approach the toilet. After use, the triple jet Tornado Flush is activated forcing waste off the surface as the lid gently closes. A hands-free device is both more convenient and more hygienic.

NEOREST represents a new style of leisure bathing. It brings you a pure enjoyment by which you can get released both physically and psychologically when having the bath. You can gain the natural implication of the combination of water and people without any hustle and bustle.

NEOREST XH

TOTO is dedicated to pushing the limits of innovation to make technological break-throughs that improve the quality of life. The NEOREST with Actilight is a powerful cleaning system that brings new levels of health and hygiene to the washroom. Experience the pleasure of using a toilet that always looks and feels brand new.

LINEARCERAM

Exquisitely thin
is the next dimension of beauty.

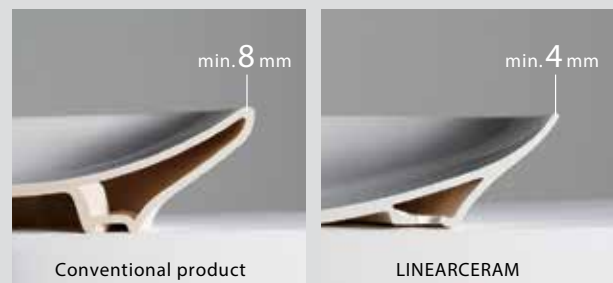

CEFIONTECT

LINEARCERAM's thin design harmonizes with any space. Although eye-catchingly thin, it is also extremely strong. Sophisticated and inviting to use, LINEARCERAM is a new paradigm in bathroom aesthetics.

To create a vessel of such exquisite thinness, TOTO developed an advanced form of proprietary ceramic.

Along the thinnest part of the ridge, LINEARCERAM is approximately half the depth of a conventional basin. At the same time, the material has almost twice the tensile strength.

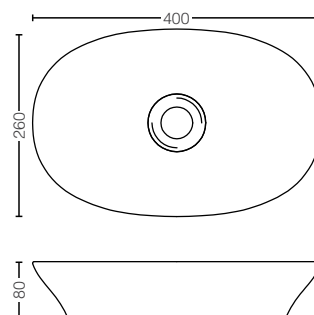

CEFIONTECT clean

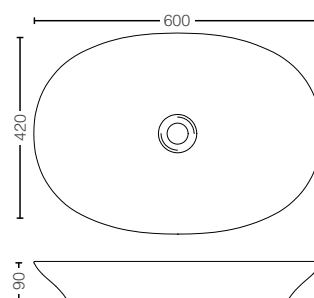

LINEARCERAM features TOTO's proprietary technology for preventing the adhesion of dirt and ensuring easy cleaning. CEFIONTECT has superior durability for long-term use.

AUTO FAUCET WASHBASIN

WASHBASIN

SOFT FLOW

From the graceful design, comes
the most gentle touch of water.

The precisely balanced streams of water from SOFT FLOW faucets touch the skin gently, causing almost no spatter as you wash your hands. The feeling is soft, lustrous and enriching. Sensor-operation eliminates the need for levers or buttons to touch.

More than clean, beautiful

SOFT FLOW's translucent streams of water are exquisitely beautiful to the eye.

Splash-free handwashing

Even as the water completely envelops the palms, there is little to no splatter of droplets.

Hands-free operation

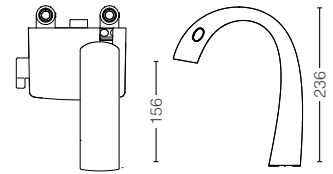

SOFT FLOW has sensors both for opening and closing the spout and for switching between hot and cold water. Simply waving the hand over the sensor operates it.

releasing stress on joints and encouraging ultimate relaxation.

The brain in a state of tranquility

Research has shown that the ZERO DIMENSION bathing posture
reduces activity in the part of the brain that houses the language function.
This is the reason Zero Dimension bathing feels calming and relaxing.

Exclusive features make every bath a luxurious occasion.

NECK BATH

With variable pillow positions ensuring stability, people of all body shapes can enjoy the warmth of the bath from above the shoulders to the neck.

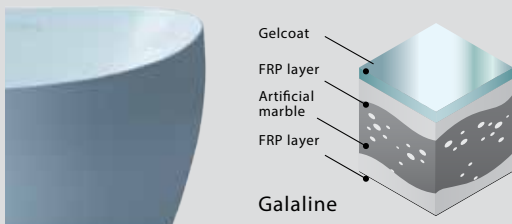

AIR -JET

Fluctuating streams of air bubbles rise from below and envelop the body with a soothing sensation.

LED LIGHTING

In the outer perimeter of the tub's base, LED LIGHTING supplies a dream-like ambience.

GALALINE MATERIAL

Offering outstanding durability, the tub is made of GALALINE artificial marble and constructed using TOTO's innovative sandwich configuration.

CONTROLLER

The electrostatic CONTROLLER is operated by the slightest touch.

HYDROHANDS

Deep stimulating water massage gives the feeling of real hands kneading on tired muscles.

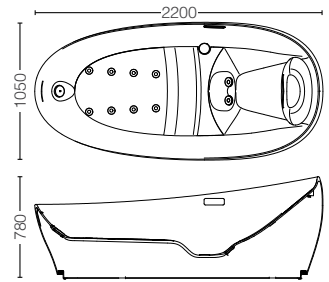

HYDROHANDS is a dynamic water massage that flows randomly around targeted muscles to release tension. This powerful, constantly-moving stream gives the stimulating sensation of a masseuse's hands at work. Free of air bubbles and noise, HYDROHANDS encourages a deep sense of relations.

WASHLET TECHNOLOGIES

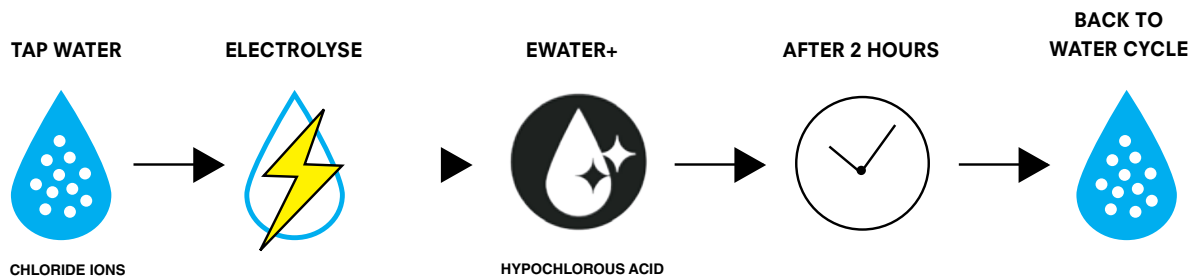

EWATER+

What is EWATER+ Technology?

EWATER+ is an antibacterial liquid that prevents waste particles from accumulating and staining the toilet bowl. It is automatically sprayed onto the toilet bowl after flushing. It eliminates 99.9% of bacteria and sterilises the bidet nozzle after every use.

**ELIMINATING
OF BACTERIA 99%
THAT CAN BE FOUND ON
THE TOILET BOWL**

HOW IT WORKS

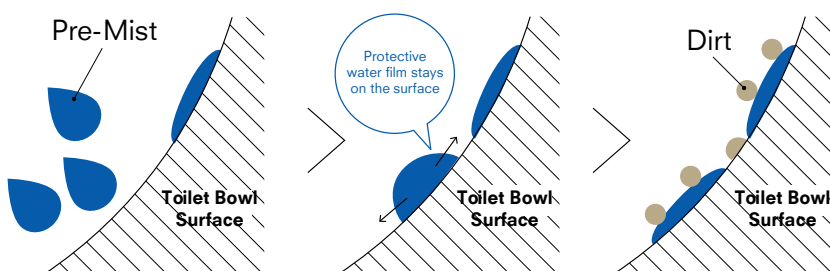

When naturally occurring chloride ions in tap water are electrolysed, they turn into hypochlorous acid, the active ingredient of ewater+. Hypochlorous acid is capable of instantly sterilising a dirty surface.

EWATER+ converts back into regular water after two hours, making it an Earth-friendly alternative to harsh household cleaning agents.

PRE MIST

The PreMist function ensures the greatest possible hygiene from the very first moment. The toilet bowl is sprayed with water prior to use. This fine film of water over the CeFi-ONtect glaze helps eliminate dirt and waste 80% better with each flush. This makes the toilet easier to clean without the need of aggressive cleaning, and improves overall hygiene.

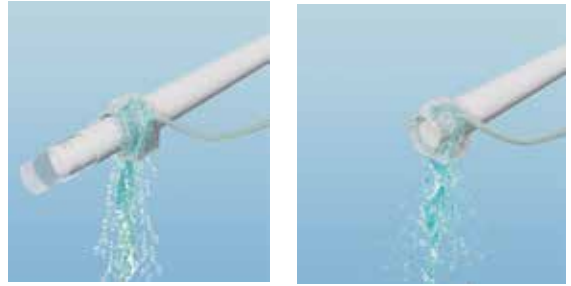

A high-angle, close-up photograph of a white, oval-shaped Toto Washlet toilet seat. Two hands are visible at the bottom corners, holding the seat open. The seat is positioned over a white toilet bowl. The background is a light-colored tiled floor. The text 'WASHLET HYGIENE BENEFITS' is centered on the seat in a bold, grey, sans-serif font. At the top of the seat, there is a control panel with a small display and several buttons. The panel has 'TOTO WASHLET' printed on it, along with some smaller text in Chinese and English.

WASHLET HYGIENE BENEFITS

SELF CLEANING WAND JET

The WASHLET automatically cleans the wand jet before and after use. TOTO technology is able to clean the wand jet system using only water – without any chemical additives.

WAND JET POSITION

The jet extends at an angle, which keeps it from getting dirty. The soiled water falls directly into the toilet bowl at an angle of 43°–53°, which keeps the jet clean.

NO HIDDEN CREVICES

All areas of the WASHLET can be easily reached. There are no hidden crevices making it easy to reach and clean.

EASY CLEANING

Seat cover can be easily removed and attached back for easy and convenient manual cleaning.

EASY REMOVAL OF WASHLET

The WASHLET can be easily slot in and out from the toilet unit via the baseplate. As such it is user-friendly for the user to remove the washlet for simple cleaning.

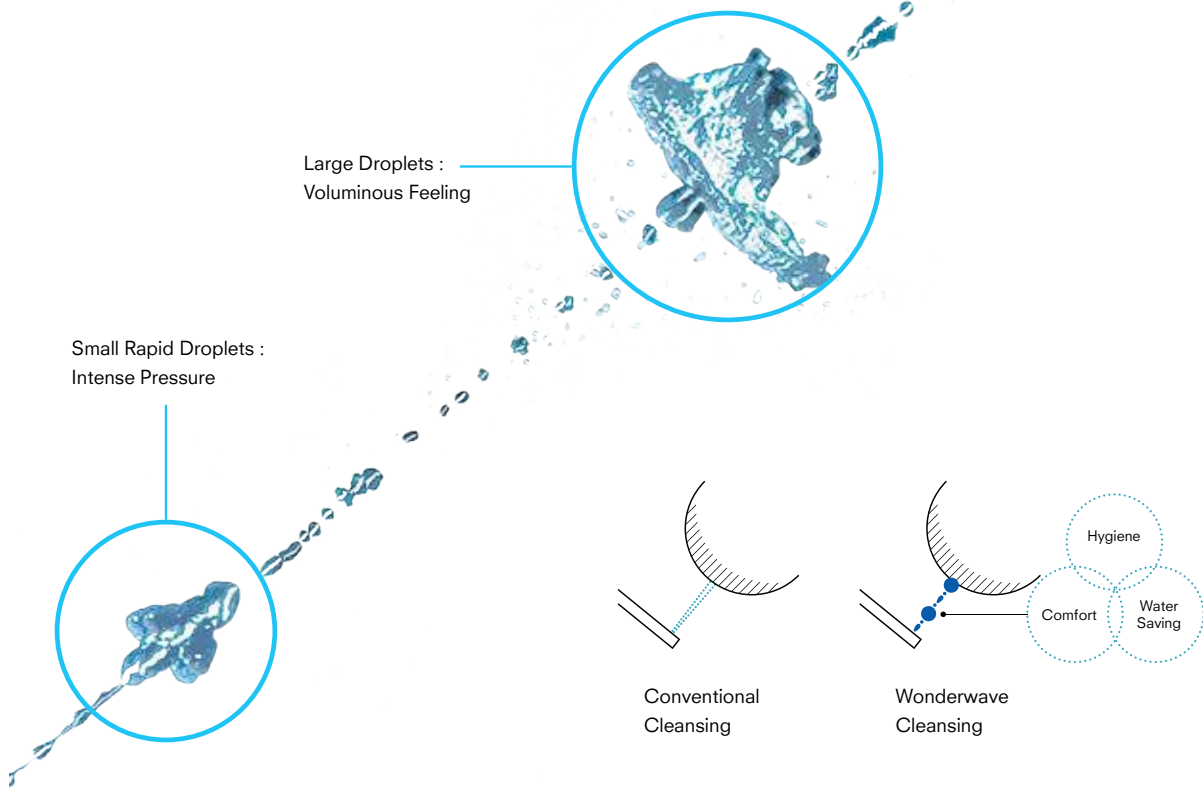

A close-up, high-speed photograph of water splashing from a white ceramic sink. The water is captured in mid-air, creating a dynamic, crystalline structure of droplets and bubbles. The background is a soft, out-of-focus blue-grey. The text 'WASHLET CLEANSING FEATURES' is overlaid in a clean, white, sans-serif font, centered horizontally and partially obscured by the water spray.

WASHLET CLEANSING FEATURES

WONDER WAVE CLEANSING

This technique sprays water droplets in rapid succession to achieve powerful cleansing while only using small amounts of water. This technology strikes a balance between eco-friendliness and comfort by supplying an alternate motion of large and small water droplets to provide a sense of abundance yet sufficient strength.

CLEANSING SPRAY PATTERNS

Rear Spray

Clean the rear intimate area
Pleasant, yet strong water pressure to target this specific area

Rear Soft Spray

Larger radius to cover more space
Low water pressure makes for a soft, comfortable spray

Front Spray

Consists of large, soft drops for comfortable intimate cleansing
Suitable for ladies spray

Wide Front Spray

Larger radius to cover more space

ECOWASHER

The TOTO Ecowasher is extremely convenient because it does not require any electricity. The water from the nozzle is controlled solely by water pressure. Without needing an electrical outlet, it is easy to install and remove for cleaning purposes. It also is just as enjoyable to use as the TOTO Washlet.

Feel the soothing effect of water
with TOTO faucets and showers.
Equipped with sophisticated
technologies, these fittings will
bring you a transformative
cleansing experience.

SHOWER TECHNOLOGIES

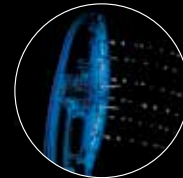

AERIAL SHOWER

Aerial Shower aerates the water to make the shower experience more enjoyable. You feel as though you're standing below a particularly full stream without any increase in the usage of water.

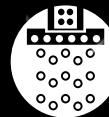

Advantages

Comfortable shower experience, less water consumption

MECHANISM

A secret chamber mixes the air into the water without slowing down the flow. Results in full coverage shower that uses less water.

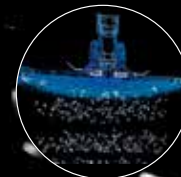

AERIAL PULSE

TOTO fixed shower heads are equipped with Aerial Pulse technology offering a voluminous flow with little water consumption. Air is drawn in through the shower head and added to the water. The shower head pulses enlarge the water droplets as they fall to give a relaxing experience.

Advantages

A more enjoyable shower experience, less water consumption

MECHANISM

The pulsing effect is created by rapidly altering the concentration of air inside the water droplets.

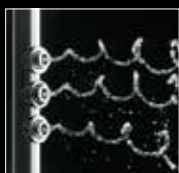

GYROSTREAM

The bathroom is a space where health and well-being take centre stage. Gyrostream offers the same relaxing effect that you'd find in a bathtub. Rotating nozzles deliver a stimulating massage that spreads its effect over a wide area of the body.

Advantages

Massage function, consistently keeps the body warm

MECHANISM

Water sprays out through nozzles that rotate in two different directions resulting in a powerful flow of water. These water vortices provide an invigorating massaging effect.

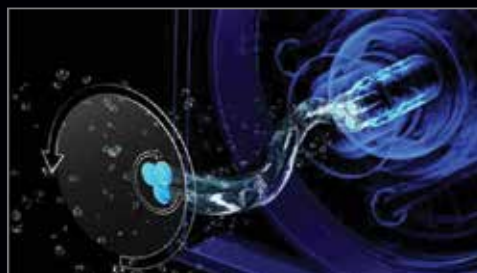

GYROSTREAM

The bathroom is a space where health and well-being take centre stage. Gyrostream offers the same relaxing effect that you'd find in a bathtub. Rotating nozzles deliver a stimulating massage that spreads evenly over a wide area of the body.

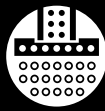

MECHANISM

Water sprays out through nozzles that rotate in two different directions resulting in a powerful flow of water. These water vortices provide an invigorating massaging effect.

AERIAL PULSE

TOTO fixed shower heads are equipped with Aerial Pulse technology offering a voluminous flow with little water consumption. Air is drawn in through the shower head and added to the water. The shower head pulses the enlarged water droplets as they fall for a relaxing experience.

MECHANISM

The pulsing effect is created by rapidly altering the concentration of air inside the water droplets.

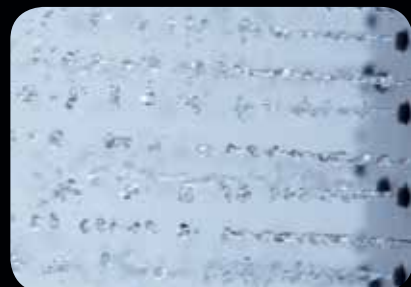

AERIAL SHOWER

Aerial Shower aerates the water to make the shower experience more enjoyable. You feel as though you're standing below a particularly full stream without any increase in the amount of water used.

FITTINGS & SHOWERS

I chose TOTO.

"Exquisite designs that catch the light." "Products that blend into the space."

"A truly refreshing bathe." "Quality I can depend on."

Everyday items should be chosen with care.

Because they care for you tomorrow.

Shower and faucets for the space you dream of.

"I found the item I wanted, so I chose TOTO."

*Products may differ by region

Quality you can feel with just a touch of the water.

*"They're always pursuing quality, **so I chose TOTO.**"*

From the past and into the future, building each day by hand.

However much things change, some stay the same. To TOTO this has always been the power of people, starting in 1946 with the goal of improving basin flush valves and the crafting of our first faucets. Skills and experiences have since passed between generations of artisans, in constant consideration of how to improve customers' lives and release consistently innovative products.

Strict quality control even at the prototype stage, with design and manufacture accurate to 1/100 mm detail. Machine polishing technology inherited from human ingenuity. Everyday a deeper understanding and skill in manipulating water. For TOTO, nothing is more important than pursuing a fundamental standard in safety, beauty and comfort.

Now we strive to add new value, improving on core quality while delivering increasingly functional and sophisticated designs. With people power as our driving force, we continue to release products building a "tomorrow" and "everyday" the likes of which the world has never seen.

Redefining comfort for your everyday life.

*"The technology was built with users' experience in mind, so **I chose TOTO.**"*

Engineering those important everyday moments.

For a beautiful, comfortable everyday life, TOTO is developing a number of revolutionary technologies.

WARM SPA

With a flow that envelops your body, this new kind of shower warms your body efficiently.

COMFORT WAVE

A mix of large drops and normal spray lets you enjoy a shower of moderate intensity.

ACTIVE WAVE

Large drops mean a more invigorating shower.

HEAT PROTECT

Technology that keeps the faucet surface cool. Safe and compact.

SAFETY THERMO

Reacts quickly to prevent sudden temperature shifts. 6 times faster than conventional systems.

MINI UNIT

Unified exterior sizes for embedded faucets. Creates a balanced, beautiful bathroom space.

COMFORT GLIDE

Control water flow in comfort. Love its long-lasting ease of use.

The soothing sensation continues long after your shower ends.

“The technology makes a more enjoyable shower, so I chose TOTO.”

Making bathtime more stimulating.

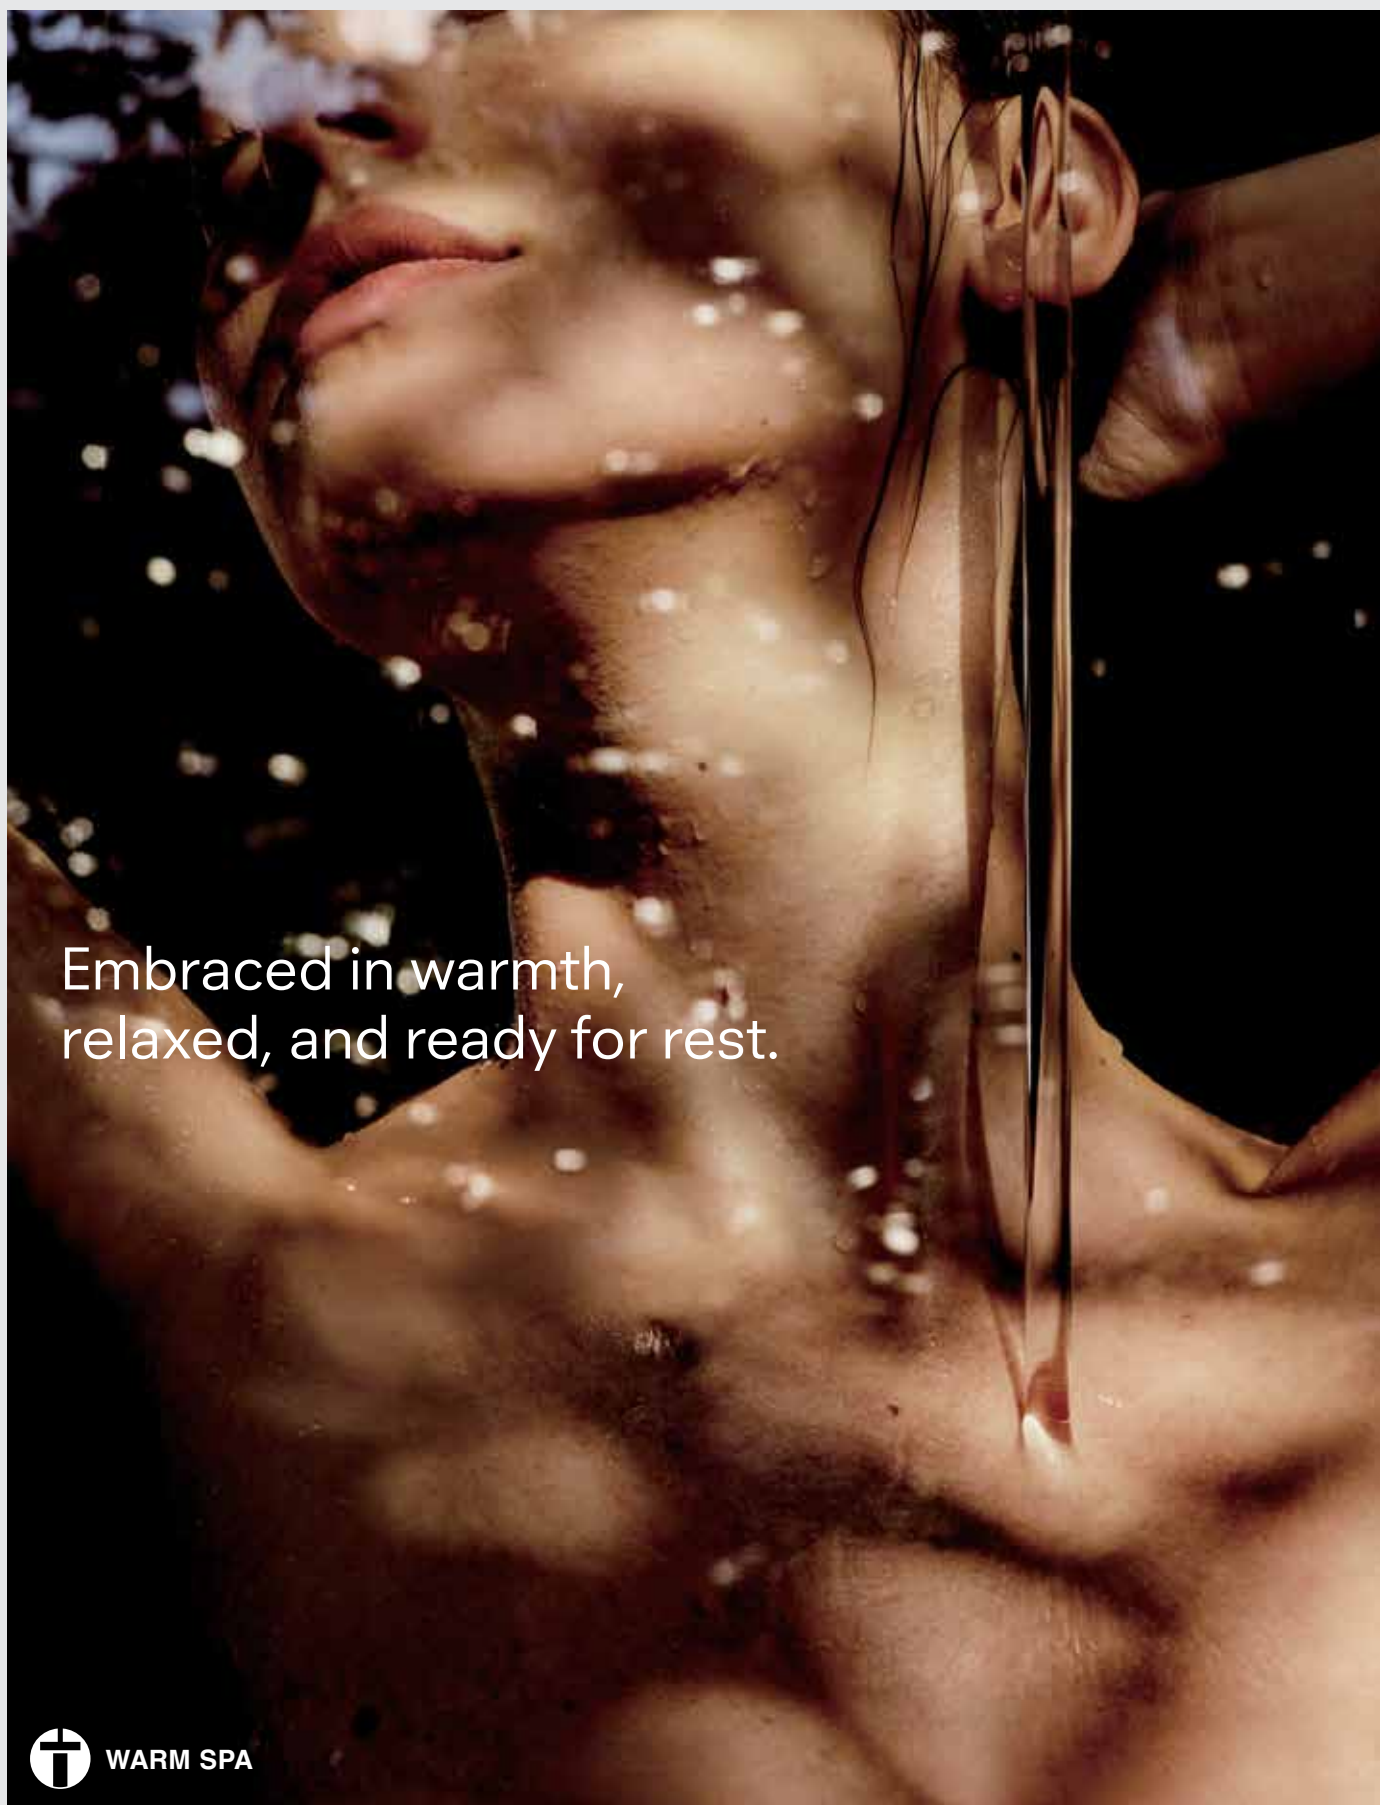

Wash off the day’s weariness. Welcome a new morning refreshed. Make this essential everyday experience not just a boring bathe, but a time of joy. TOTO’s new shower series has elevated design and functionality. Enjoy a truly enriching experience with complete relaxation of body and soul.

Embraced in warmth,
relaxed, and ready for rest.

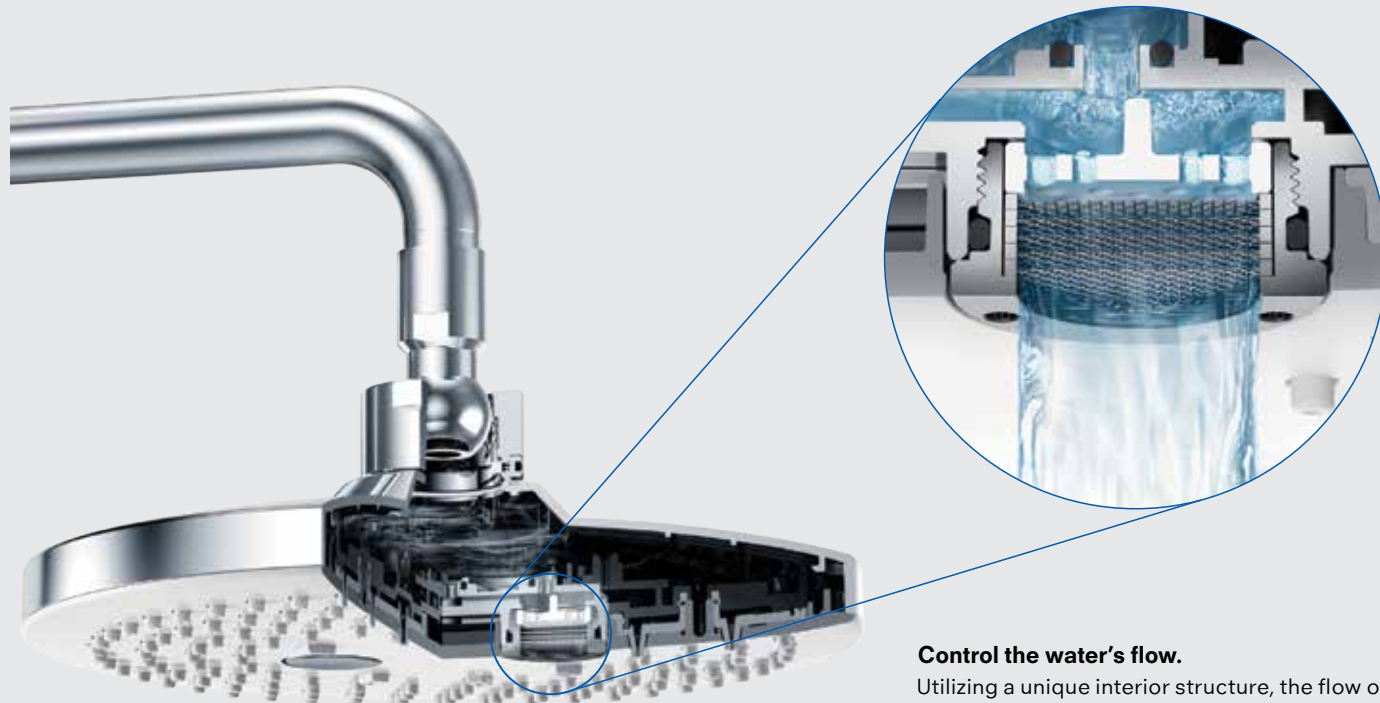

A brand new shower system. Water like a warm cloak.

The feeling of a warm bath, in a shower. This is the power of the WARM SPA.

A single pillar of warm water running quietly from the showerhead. When

water hits the body, it follows the curves and envelops it without a splash.

A completely new shower experience, warming your body efficiently.

Control the water's flow.

Utilizing a unique interior structure, the flow of water is controlled to provide a smoother shower.

WARM SPA

Let no heat escape. Be warmer.

Smooth water release means less heat loss. The water cloaks your body, quickly warming it. This feature is now available not only in conventional over head showers, but hand showers too.

That quality : only TOTO.

The image depicts how the body warms up. The red area shows the warm parts of the body. Compared to conventional showers, it is evident that the WARM SPA warms the body more efficiently.

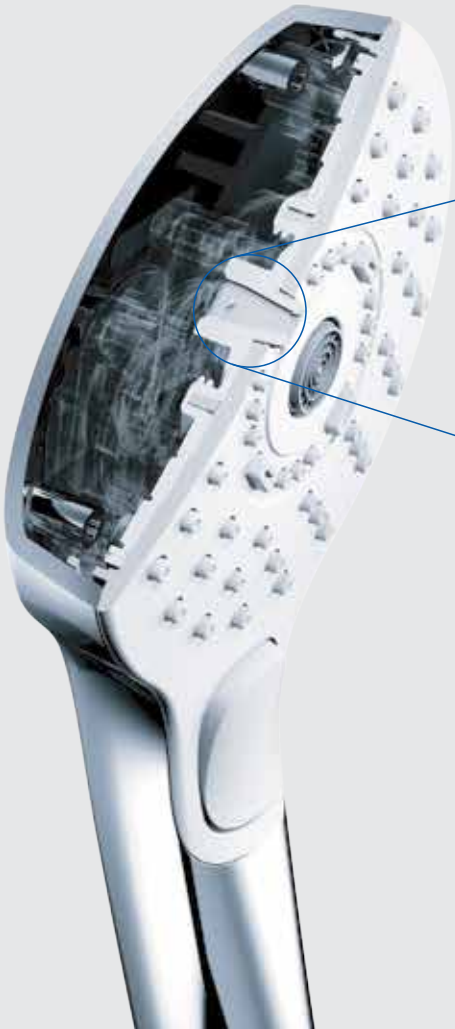

WARM SPA

conventional
shower

COMFORT WAVE

Large droplets of water, richly dense, give a luxurious sense of comfort.

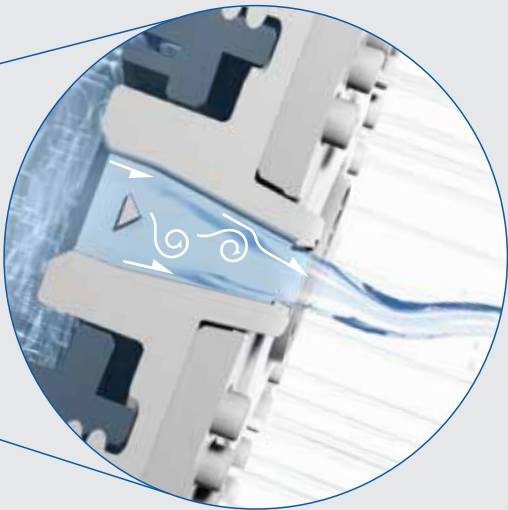

COMFORT WAVE

COMFORT WAVE uses a new nozzle to add larger drops of water to the shower, for a comfortable experience with just the right amount of stimulation.

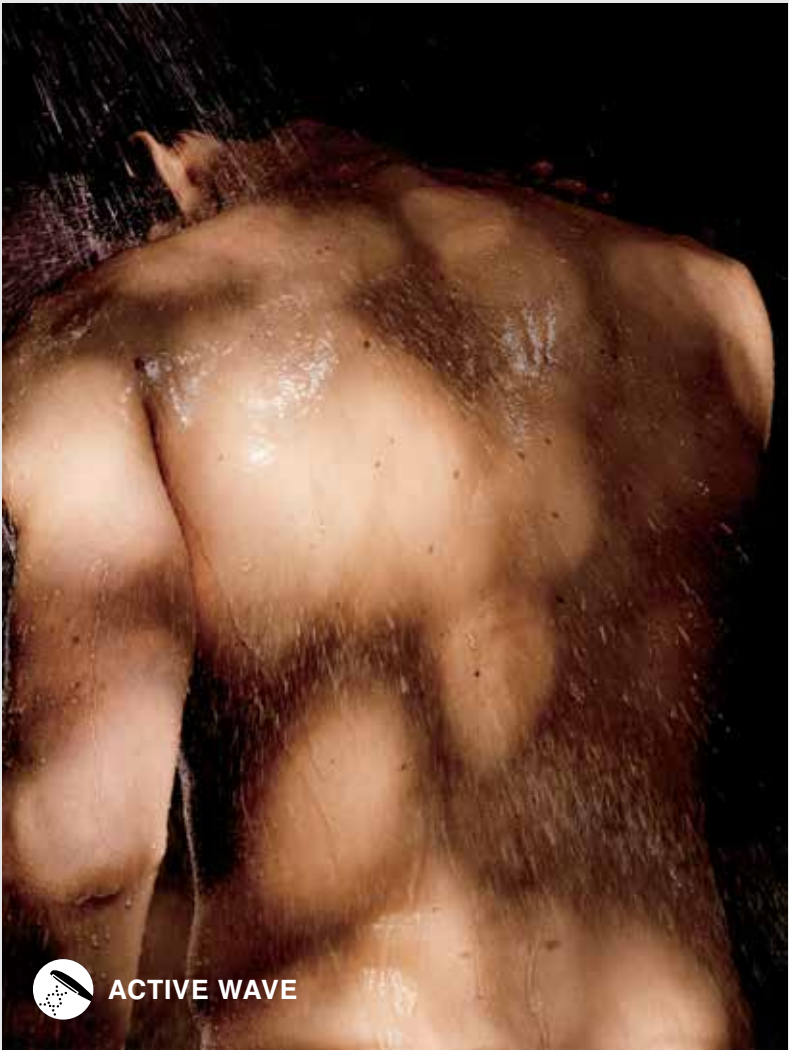

That quality:only TOTO.	
The image illustrates water penetration. While the fine drops of the conventional shower bounce off the hair, the larger drops of the COMFORT WAVE reach all the way to the scalp.	
	
COMFORT WAVE	conventional shower

Stimulating to body and mind.
Awakening to the senses.

A newly developed nozzle
for greater comfort.

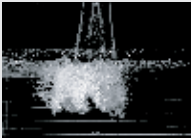

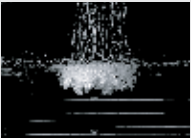

We newly developed our original shower nozzles, with bigger droplets than conventional showers. Large drops of water swing and flow with power, delivering a comfortably stimulating bathe while saving water. Feel refreshed with the moderate-intensity COMFORT WAVE, and invigorated with the high-intensity flow of the ACTIVE WAVE.

ACTIVE WAVE

ACTIVE WAVE uses the newly developed shower nozzle capable of large drops of water. It provides a more vigorous, more uplifting bathe than the COMFORT WAVE.

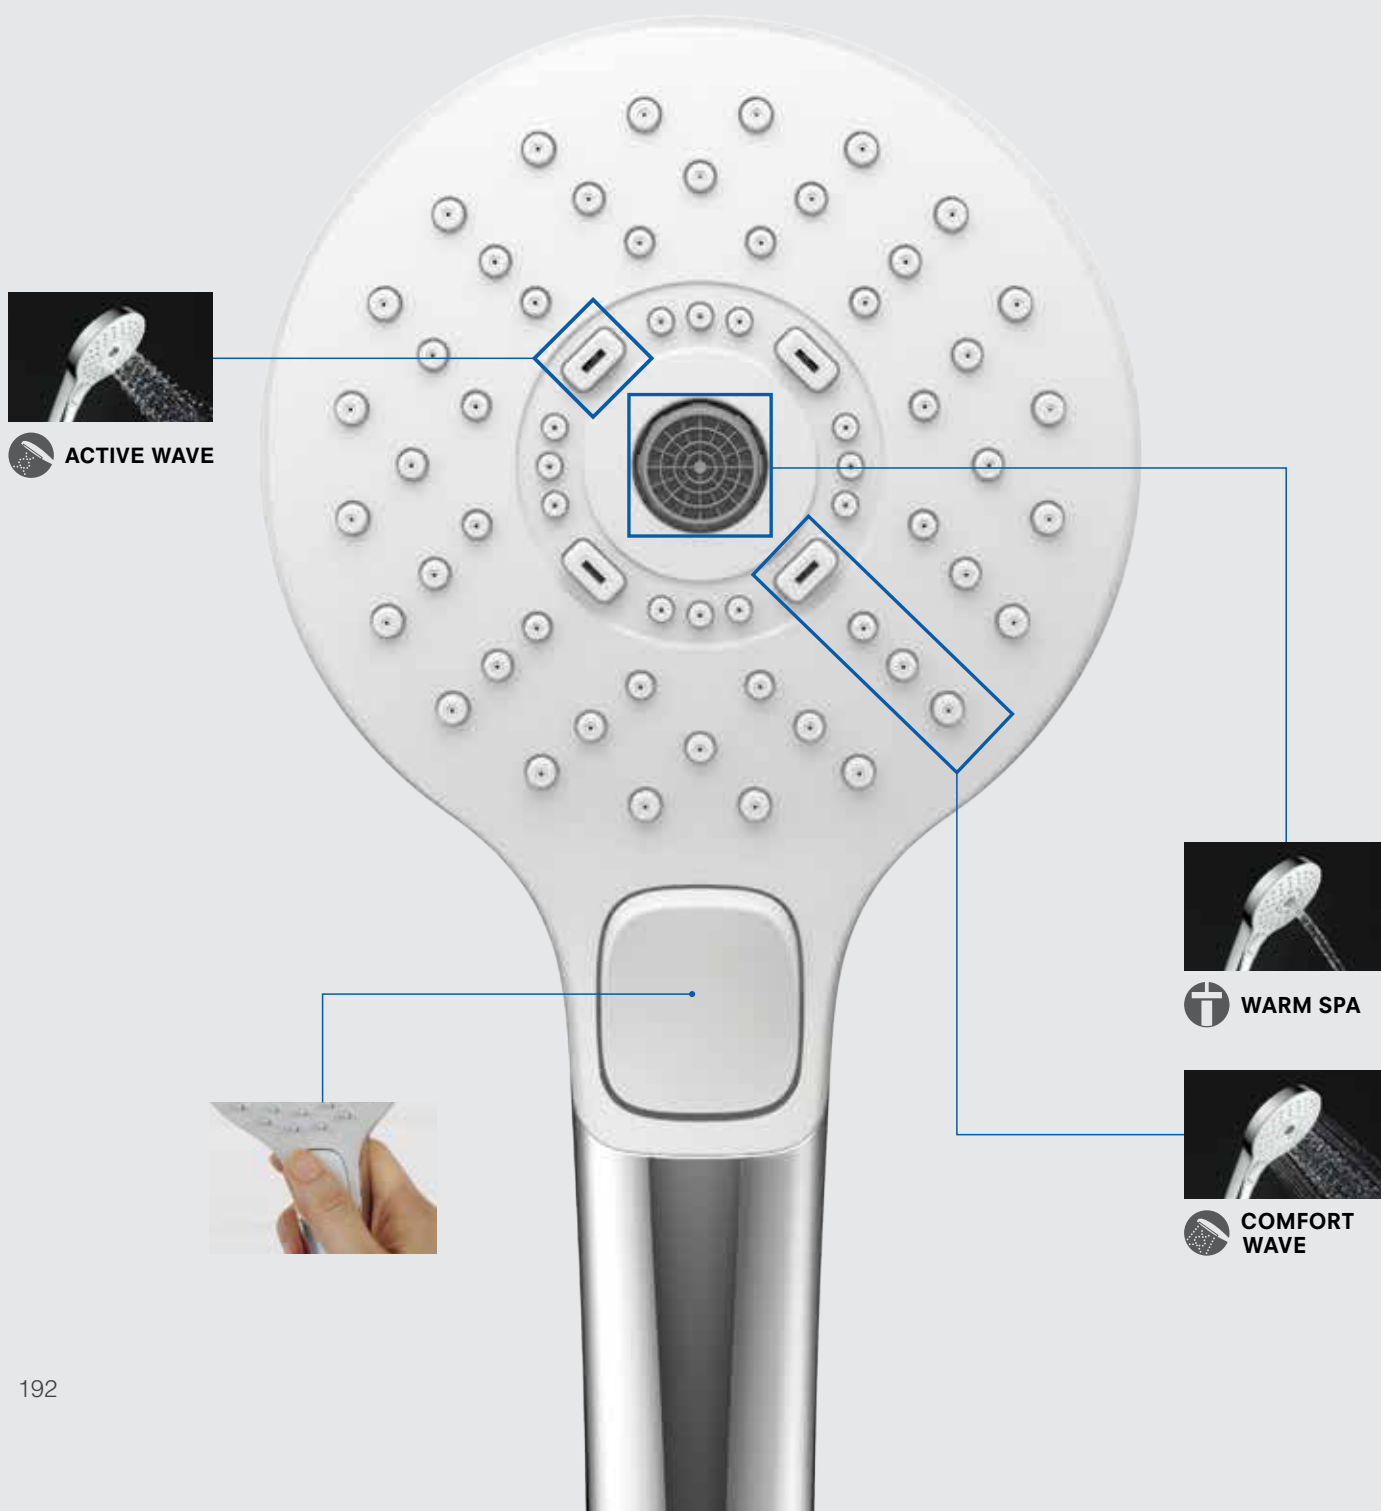

That quality:only TOTO.	
The image illustrates the comparison of the force of water. We examined the power of water flow against a transparent pool. ACTIVE WAVE has a stronger flow than a regular massage shower.	
	
ACTIVE WAVE	conventional shower

A perfect showering experience with just one touch.

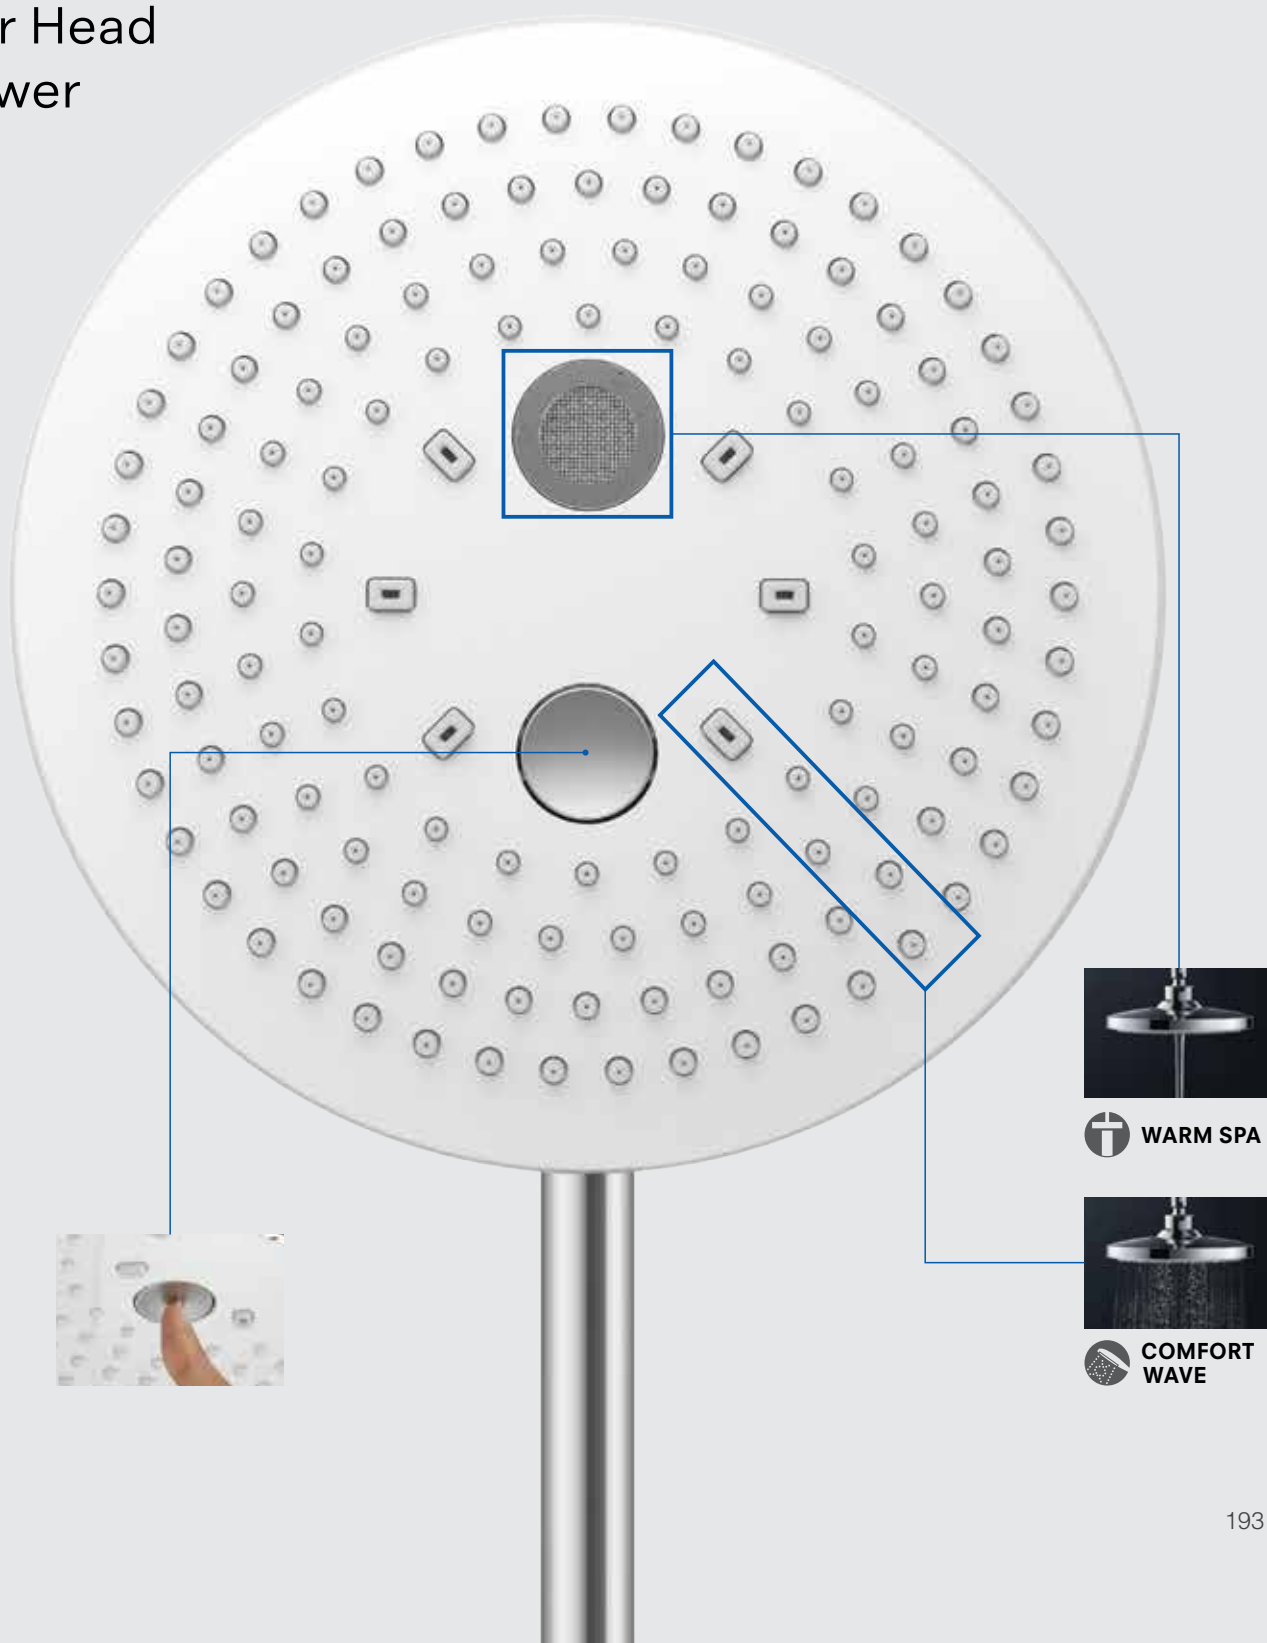

Choose your shower experience with a simple switch.

For the hand shower we installed a switch right at your fingertip, and for the over head shower the switch is located inside the showerhead. For the hand shower you can change easily between WARM SPA/COMFORT WAVE/ACTIVE WAVE, and for the over head shower between WARM SPA and COMFORT WAVE. Feel free to enjoy the perfect shower for your mood.

Hand Shower

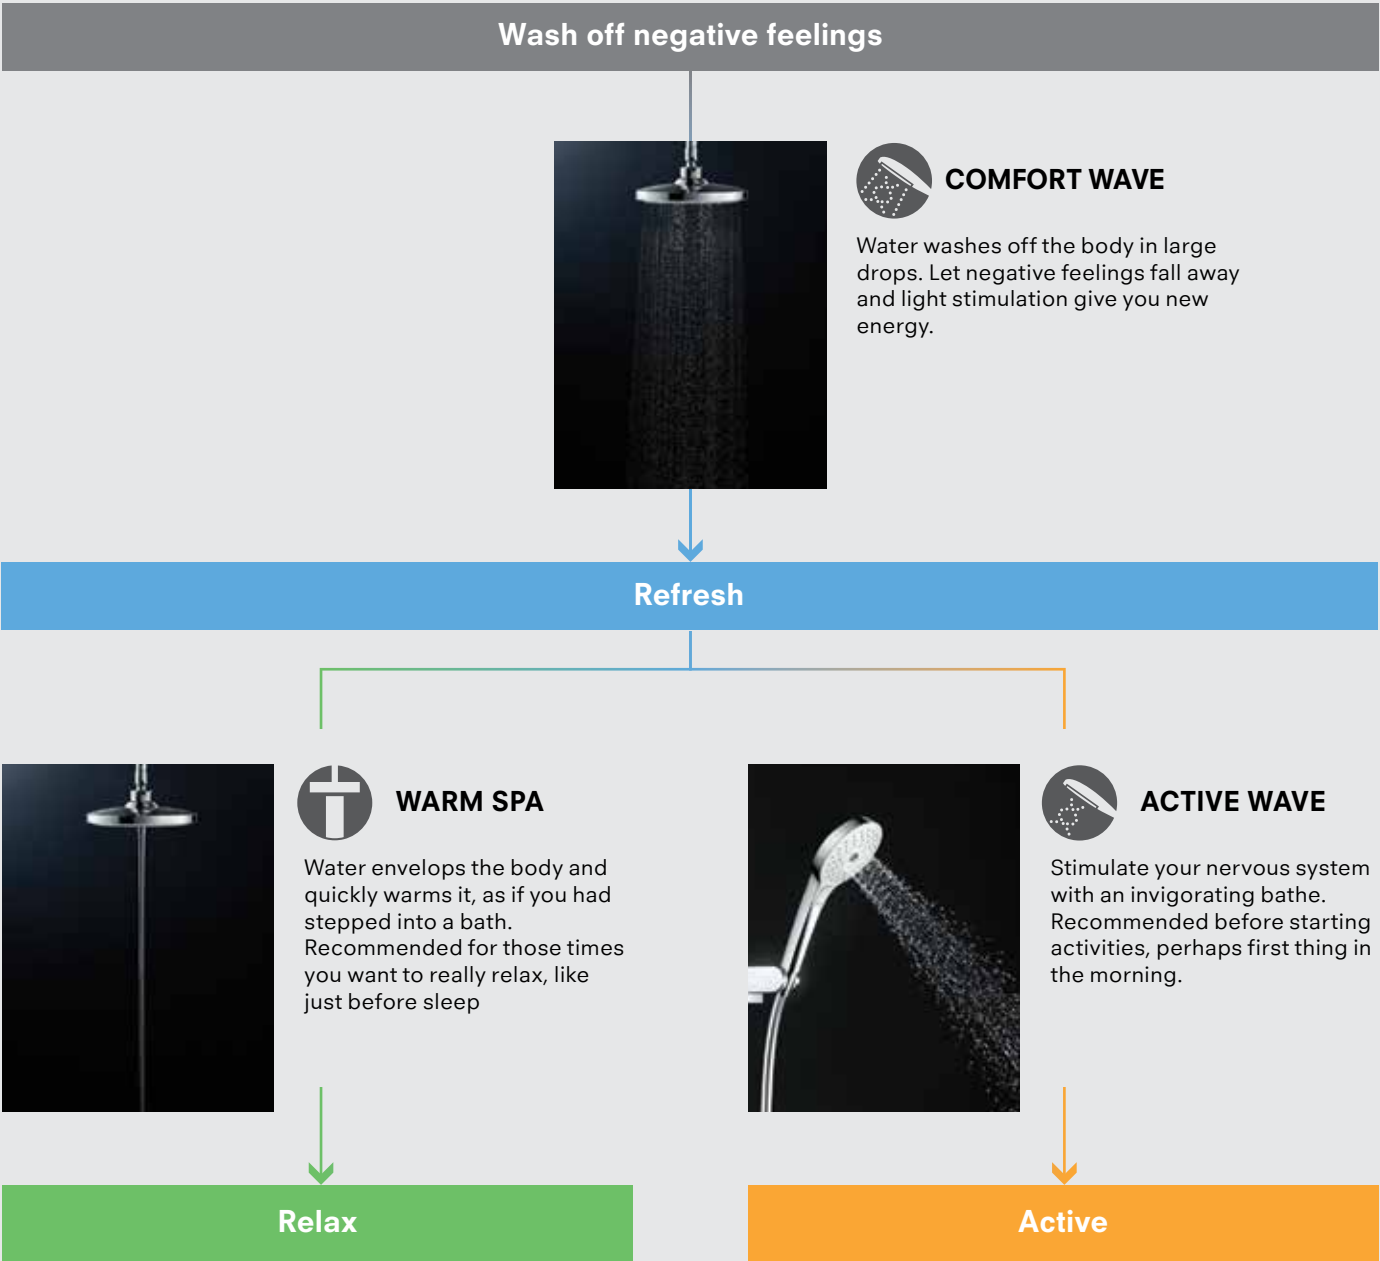

Over Head Shower

Customize your shower for a unique sensation every time.

Let luxury lead you to a new state of mind.

TOTO developed its multi-function shower for a more comfortable user experience. By quantitatively analyzing human sensation, we have researched and developed a shower with the optimum level of comfort. WARM SPA/COMFORT WAVE/ACTIVE WAVE are the pinnacles of this research. They will wash off negative feelings and guide you to a whole new state of mind. Wash away the weariness of the day, or wake up to a new morning with this shower. Let this time of luxury cleanse your soul.

Create a pleasant shower experience that is safe for everyone.

A unique approach to every risk.

For a pleasant shower, comfort is important but safety is essential. TOTO uses a unique structure developed through continuous research to prevent the various risks associated with taking a shower.

[Over head shower fall-prevention device]

Multiple structures for fall prevention.

When used over many years, the hardware showerhead mount can loosen or break, meaning the showerhead could potentially fall. By incorporating a unique safety feature, we can prevent this from happening.

[Shower holder]

Stopping plate peeling and rotation before they start.

Holder (additional resin layer)

With our original safety design, we adopted a shower holder system from which the metal plating does not easily come off. Thus we can prevent injury caused by touching the area that would normally be exposed.

Rubber cap (with protrusion)

The showerhead is prevented from unintentionally spinning or coming off of the holder because of the power of the water.

anti-spin

anti-fly out

Experience a bathroom where safety and beauty become one.

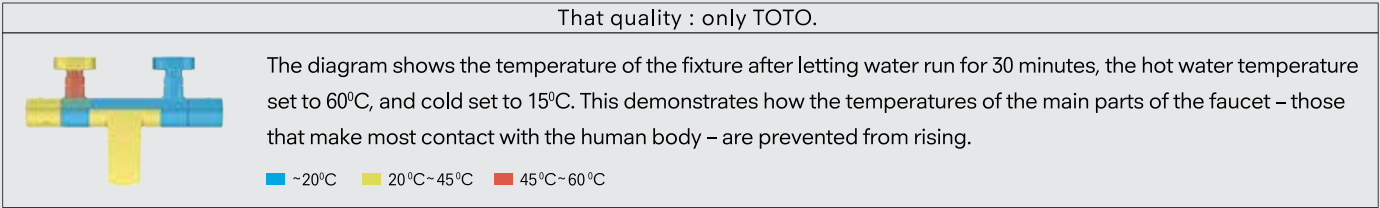

Unique technology keeps the surface cooler.

When you use hot water, the surface of the faucet also gets hot. TOTO's solution is a unique innovation in design. By covering the path of the hot water with a layer of cold, HEAT PROTECT is able to prevent burns when accidentally touching the fixtures.

Industry-leading compactness brings sophisticated style.

We created the industry's smallest diameter of Ø45mm while providing superior insulation performance.

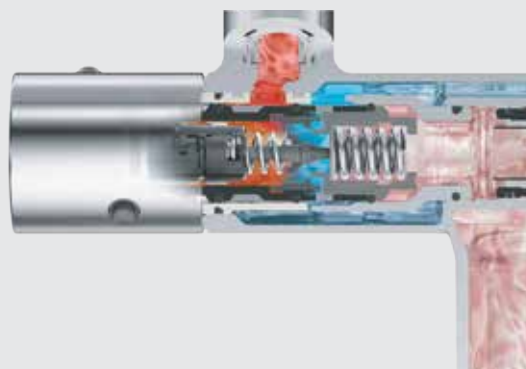

SAFETY THERMO

Safe, reliable water temperature means a more relaxing bathtime.

Temperature swings, solved in an instant.

Let's say a family member uses water while you are in the shower. This can often create a sudden, unwanted increase in the shower water temperature. SAFETY THERMO prevents this from happening. A coil made of Shape-Memory Alloy (SMA Coil) reacts instantly to water temperature change, keeping the temperature from rising.

Temperature control, 6 times stronger.

Our SMA coil detects water temperature instantly. Compared to a traditional wax type, it reacts to hot water 6 times faster (in-house comparison).

That quality : only TOTO.

conventional

Discharge (°C)
Temperature

SAFETY THERMO

Discharge (°C)
Temperature

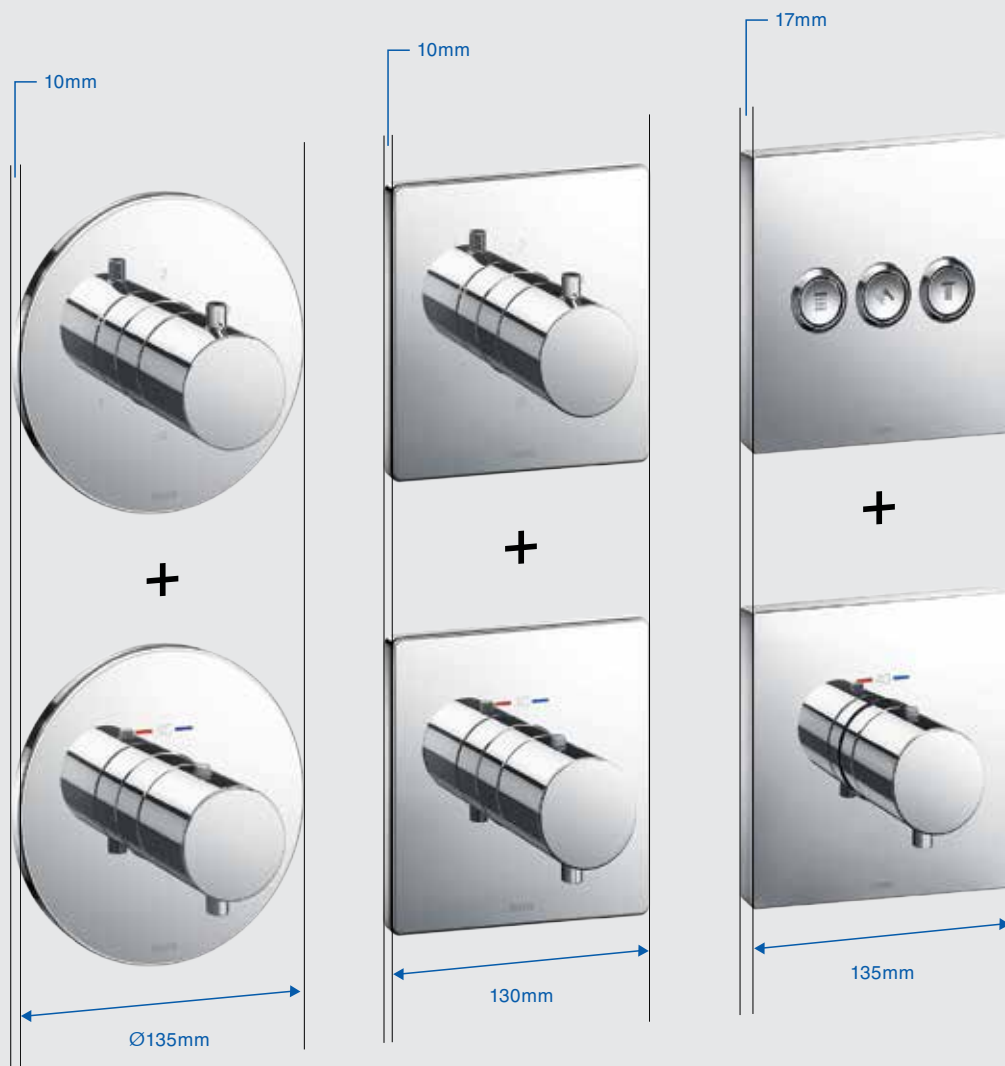

The graph shows water temperature and time. It is apparent that a conventional faucet experiences large temperature fluctuations. In contrast, the graph for SAFETY THERMO shows very little change, as temperatures are kept very steady.

Small. Flexible.

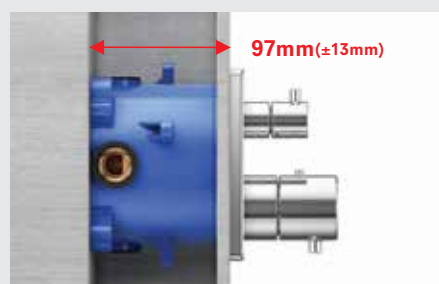

The exact exterior you want.

Concealed faucets liven up the bathroom. TOTO's MINI UNIT is a technology that gives you more freedom. We don't match the concealed system to each trim, instead we use a shared module. You can choose the functionality you need such as a single lever type, thermostat type, or touch button type, and also make choices based on design features such as circle or square fixtures.

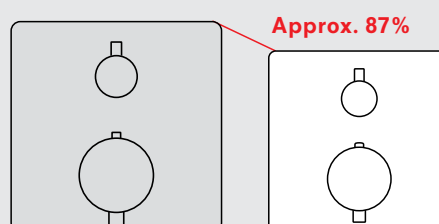

Easier to install. Less load on the frame.

A high degree of flexibility when installing the MINI UNIT is one of its most attractive features. We were able to achieve one of the industry's smallest and lightest bodies for the concealed system. It puts only a minimal load on the architectural frames and has improved manageability during installation. In order to conceal the unit, the wall only needs to be 97mm, and the system is able to absorb installation errors of $\pm 13\text{mm}$.

Industry-leading miniaturization. Beauty in balance.

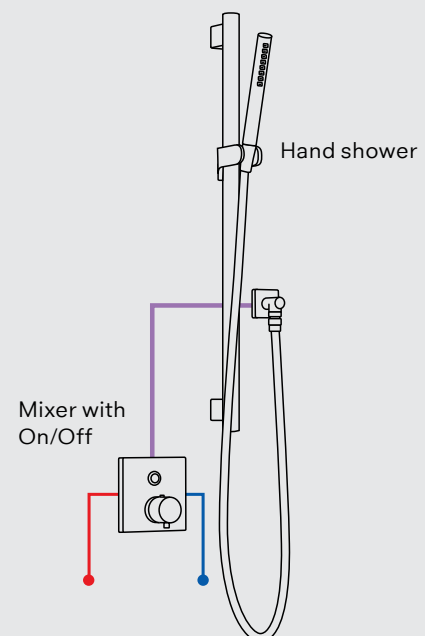

We shrunk the unit to one of the industry's smallest. The trims are also some of the most compact. In addition, our progress towards uniform sizes mean units can be used simultaneously to create a beautiful space. We also strived to make the trim as thin as possible. A bathroom of unity and style can be yours.

Personalize a space to match your lifestyle.

1 OUTLET

The most simple.

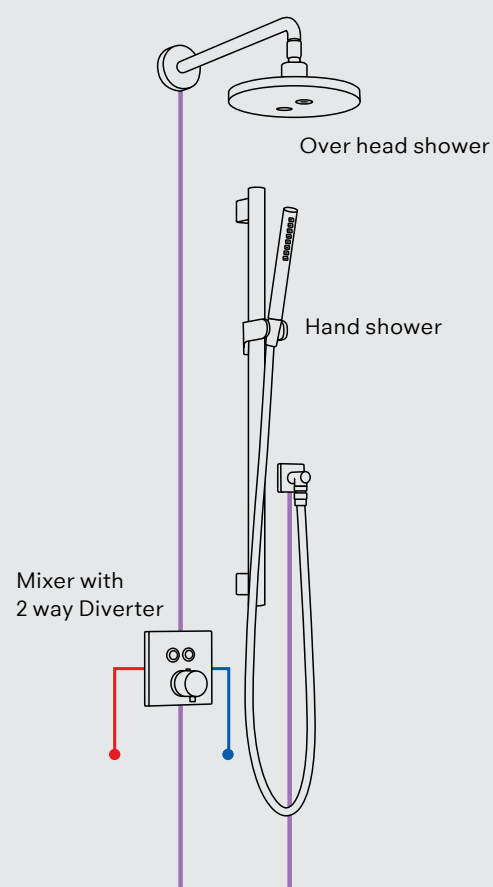

A shower space designed with 1 shower outlet (choose between a hand shower, over head shower, or bath spout). It's the simplest way to enjoy a comfortable bath experience.

Match your lifestyle to one of three shower systems.

TOTO showers. Besides water flow and design, you can choose the number of outlets as well. From something simple to highly decorated, options are available based on your lifestyle and style preference.

2 OUTLET

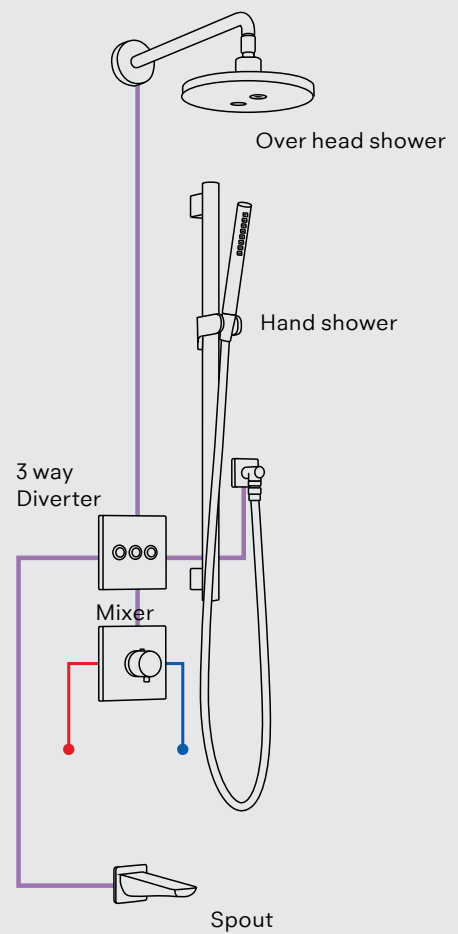

Enjoy a different kind of bathe.

A shower space designed with 2 shower outlets (hand shower + over head shower, for example). Depending on how you are feeling that day, you can change up between hand shower and over head shower.

— Hot water — Cold water — Mixing water

3 OUTLET

The most varied way to have fun.

A shower space designed with 3 shower outlets (hand shower, over head shower, bath spout). The system that will give you the most varied shower experience.

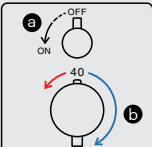

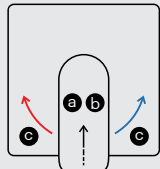

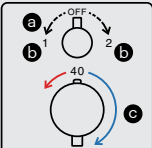

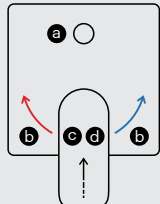

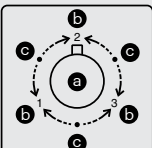

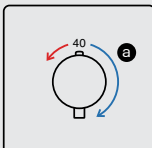

— Hot water — Cold water — Mixing water

Compatible trim variations

A varied product lineup. Choose functionality and design based on your preferences.

Smart design, fascinating forms.

Refined design, down to the last detail.

The handle and body share the same axis, one seamless shape for beautiful gilt reflections. Installing the tip of the spout inside means it's easier to clean and gives a smart silhouette. With care taken for the smallest detail, TOTO's unique lineup makes a space that will fascinate you before you know it.

Freedom to design Your personal unique space.

Mix & match to your taste.

In addition to the standard Polished Chrome, we offer Brushed Nickel, Polished Nickel, Brushed French Gold and Polished French Gold with a total of 5 color choices. The color variations capture current trends and help create spaces fit for various personal tastes.

From the exquisitely thin design
sense the harmony of beauty.

Conspicuous in its absence, a space of ultimate luxury.

We achieved a thin edge of just 3mm. One of the world's thinnest spouts and beautifully contoured lines brings you ultimate silence. It's as thin as a steel plate, and its serene appearance will fit seamlessly into any space. In order to achieve this, we used stainless steel welding technology, an unusual method for faucet production. This innovative approach made it possible to achieve a thinness unattainable by ordinary methods. We put all of TOTO's knowledge and technology into creating a beautiful finish to the faucet, such as inconspicuous joints and a polished, mirror-like surface. Of course, we achieved a full, strong water flow, fitting for such a high-end faucet series. Quiet yet impactful, we bring you a new design that combines these seemingly opposing concepts.

Decorate your space
with the new standard of beauty.

The union of taut curves and edges.

The top surface's taut curve, the spout's smooth one and the sharp line of the edge: such variation in the silhouette gives the shape a unique presence. The keen edge and flow of the smooth surface reminds one of the exquisite craftwork only achievable by a master craftsman. Well composed and elegant, welcome a series that sets an advanced standard for the new generation.

Organic forms for your natural wellbeing.

Delicate elegance. Quality and volume.

The back panel's graceful curve reaches towards the top. We pursued an organic form, like a plant that straightens itself gracefully when bathed in sunlight and soaked in water from its roots. Its gentle, elegant and exquisite silhouette enlivens the space gracefully. This series will live with you, stay right beside you and support your everyday life.

Geometric shapes that sparkle.

See elegance in reflections.

The sharp edge of the spout and handle gives a proper weight to the product. In contrast, the top panel incorporates curves and a soft slope, making the overall impression one of regal elegance. Just like a glass sparkling on the bar, it boasts a splendid presence. Enjoy its geometric forms and the beautiful expressions within the sparkles.

Set the standard for every day beauty.

Smooth shapes that will become a standard.

A standard design with modern twists dotted here and there. A series fit for modern living spaces.

We imagined man-made forms such as cylinder and rectangular columns changing slowly over many years, gradually showing traces of smooth organic lines. The top panel's soft bulge is like the surface of the water about to flow over. We pursued a standard look, sure to be loved for generations.

COMFORT GLIDE

Easy to use
for a lifetime of comfort.

Ease of use, based in sensation.

Comfort. For TOTO, this does not simply mean comfort of movement. Ease of use, when it lasts a long time, becomes comfort in itself. For this purpose, TOTO has developed the internal valve based on users' touch. Designed from the ground up to provide a fundamental comfort in operation.

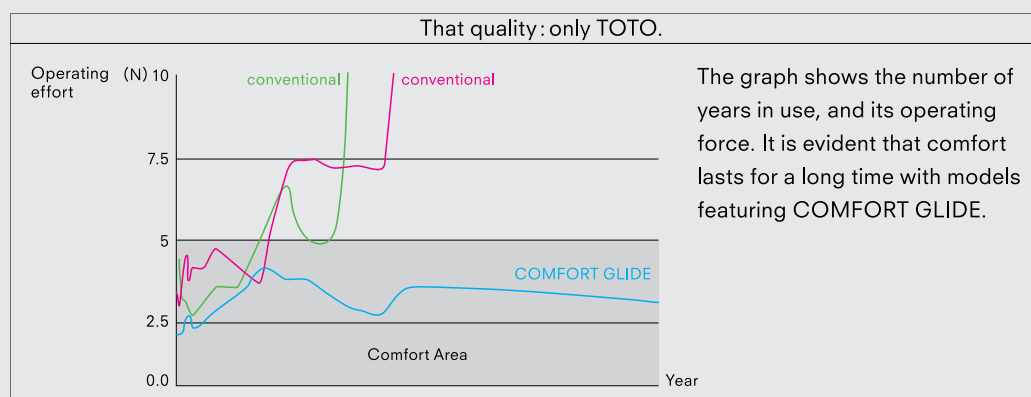

Special coating for prolonged comfort.

The ceramic disc, a core valve component, is covered with a special DLC (Diamond Like Carbon) coating. This ensures long-lasting quality over conventional faucets that use a greased valve.

Precise flow control, exclusive to TOTO.

Our exclusive technology means new functionality. We took the core component of the valve, the ceramic disc, and customized its shape for ease of use. Compared to conventional faucets, it's easier to control water flow when just a little is required, such as when you are washing a contact lens. Because you can achieve the right amount of water flow instantly, it helps conserve water.

*Adjustable flow functionality is only available for lavatory faucet for deck mounted types.

The simplest designs can be the most beautiful.

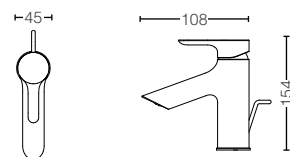

A beautiful blending of branches.

Composed of combinations of simple cylinders, pulled together by planes with smooth curves. We strived for a beauty that, like branches of a tree, brings organic forms into an inorganic space. Enjoy your everyday in a simply sophisticated space.

Classical elegance for a new today.

Modern approach, classical touch.

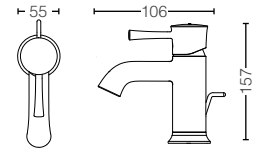

A hint of nostalgia within a modern vibe. We wanted to create a look and form where two different styles work together. A beauty that exists only in this day and age. Simple yet classical elegance to decorate your everyday.

Flowing curves that look better every day.

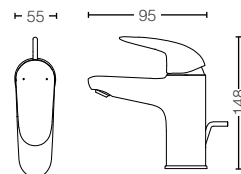

Complimentary designs that never lose their appeal.

A wholly rounded form compliments the ridgeline. The top panel's three-dimensional surface emphasizes its material quality. The smooth, sea glass-like form will refresh your senses with every touch. It blends right into the daily life of many different kinds of people.

Breathe new life into your bathroom.

More compact, yet more volume and flow.

A casual look designed with everyday use in mind. We achieved the dual senses of size and tension even in a tight bathroom space, while keeping the form fresh. There's just the right sense of volume and presence. This series was born of the desire to bring flexibility to the everyday lives of various people, just as your favorite silverware might.

Safety with you in mind

Faucet surface temperature controlled through safe construction and materials.

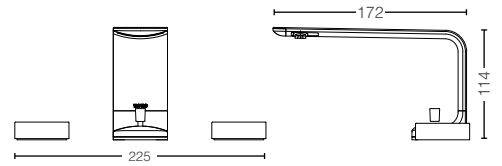

When using hot water, perhaps when adding water to a bath, the heat can travel through to the handles. Not only does this increase the risk of burns, but may make the handles too hot to turn off the water. For TOTO's 2 handle faucets we analyzed how heat reaches the handle, and adopted a design and materials that mean less heat is conducted. Our new 2 handle faucets (sinks and bathtubs) all come with this high-level safety feature.

That quality: only TOTO.
We imagined the worst case usage scenario, and worked back from there to determine the required surface temperature. For example, even when 90°C hot water passes through, the area that comes into hand contact will remain 45°C (close to shower temperature) or less.

BATHTUB

A close-up, low-angle shot of a person's legs and feet submerged in a bathtub. The water is dark and still, reflecting the warm, golden light of several lit candles. The candles are placed on the edge of the tub, creating a cozy and intimate atmosphere. The background is dark, with some out-of-focus lights visible in the distance.

Give yourself the time to indulge in luxury everyday. Taking a bath is no longer just about cleansing your body but also soaking in extreme comfort and tranquility.

TOTO's wide-range of bathtubs are specially designed to maximise the little time you have for yourself. Unwind in a luxurious sanctuary for relaxation and meditation.

AIR-JET MASSAGE FUNCTIONS

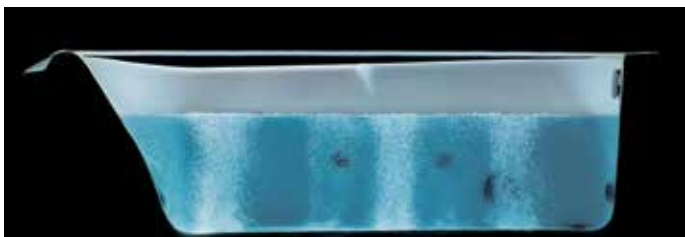

Air-Jet

The Air-Jet outlets at the bottom of the bathtub eject air. Full body Air-Jet massage creates the holistic relaxation.

Whirlpool

The Jet inside the bathtub ejecting water creates a whirlpool effect. The whirlpool effects massages the lower body and legs giving total comfort.

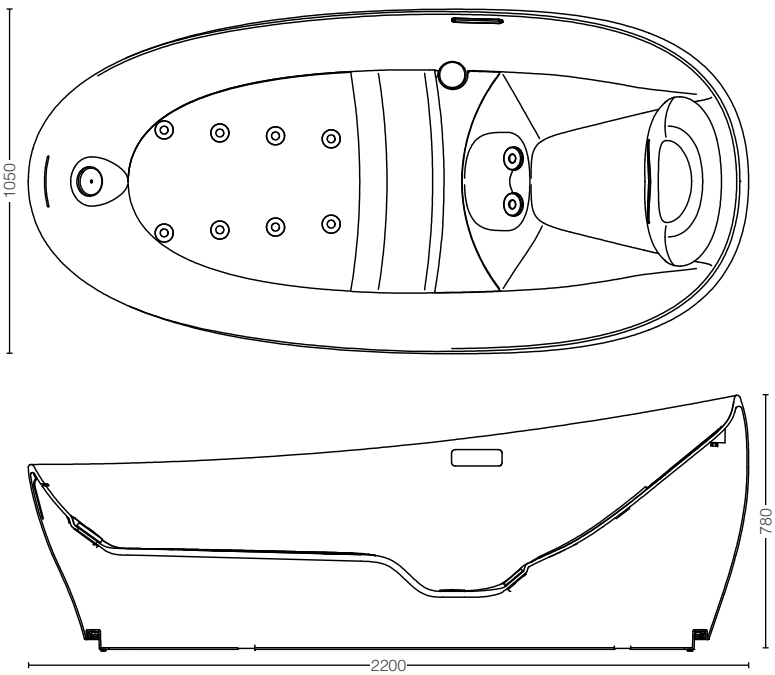

Air-Jet + Whirlpool

The luxury combination of Air-Jet and Whirlpool maximizes your bathroom experience.

AUTO FAUCET SERIES

Micro Sensor

Integrated into the tip of the spout for accurate movement sensing

Power Generator

Water turns the power generator's turbine, creating an electrical current

Solenoid Valve

Activated by electricity from the power generator

SMA Thermostat

Maintains constant temperatures despite fluctuating water temperature and pressure levels.

SELF POWER

TOTO automatic faucets no longer need power from an electrical outlet. The energy from the flowing water is used to charge a battery that powers the faucet. The faucets require practically no maintenance.

AUTO FUNCTIONS

Cost Reduction & Energy Saving
Batteries don't need to be replaced which is better for the environment and reduces the need for maintenance.

Hygiene

The sensor-activated system means that users don't need to touch the faucets, reducing the risk of transmitting bacteria.

Smart Sensor

The automatic faucets feature an almost invisible sensor in the spout. It registers every hand movement precisely and is tamper-proof.

WATER SAVING

TOTO's aerated technology adds air to the water enlarging each droplet. This reduces water consumption by half from 4L to 2L per minute without any loss in stream volume.
